Quality & Service

STEPS / TREADS

Granite steps are the ultimate choice in beauty and durability.

Produced with our quality granite, these steps hold up to all that Mother

Nature can dish out. They won't chip

or crack from the freeze-thaw process, or

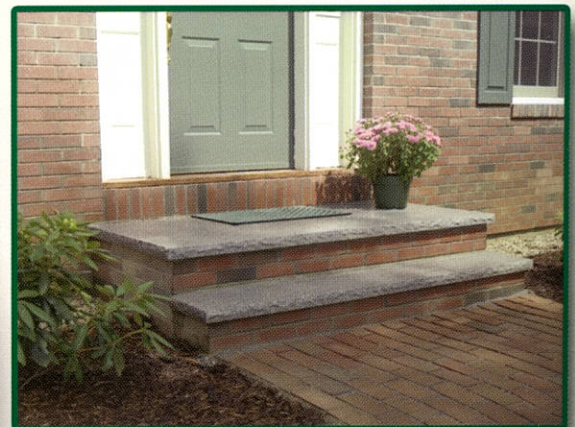

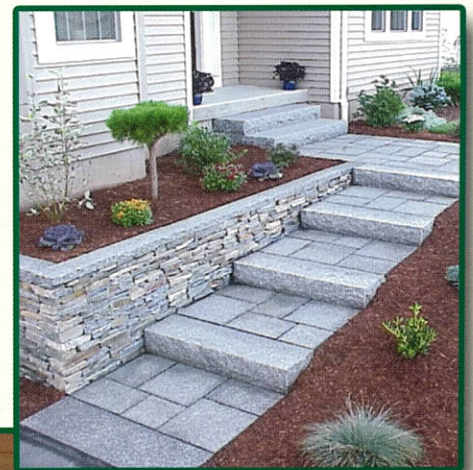

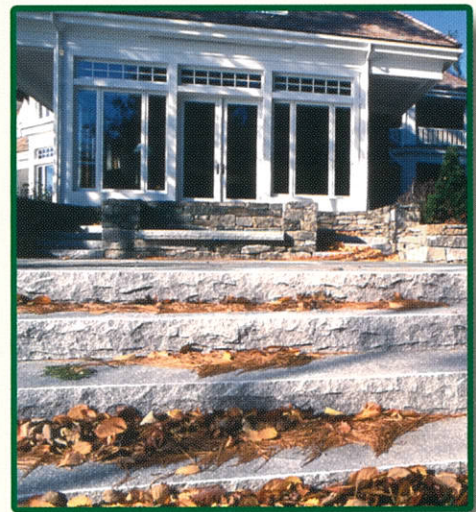

degrade over time like wood, brick and concrete, and

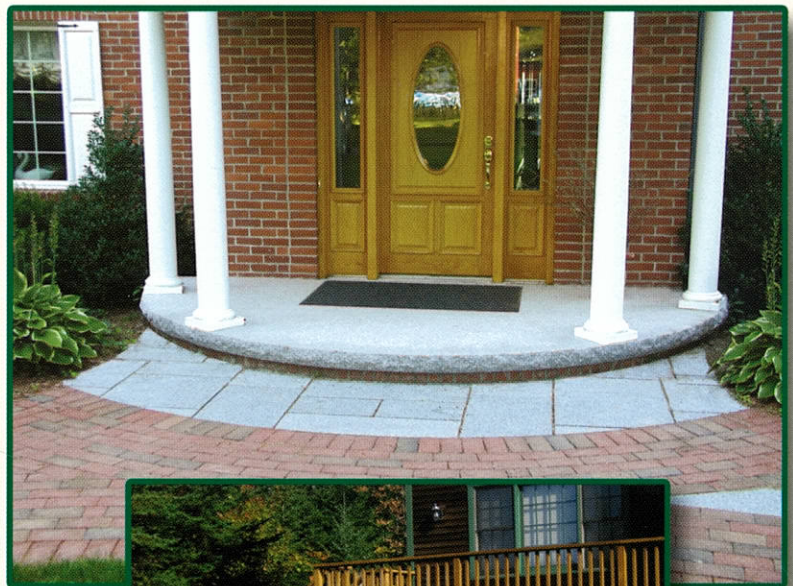

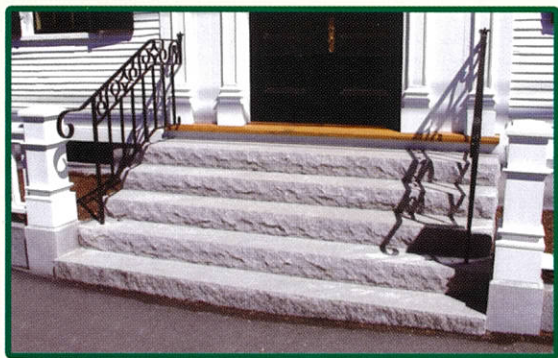

are unaffected by all ice-melting chemicals. We carry an

extensive line of stock sizes in a variety of styles at all of

our Granite Works locations, and with our state-of-the-art production facility, often produce to our customer's specifications as well.

Whether your project is ultra-contemporary or a meticulous restoration, Swenson Granite Works can produce the right product for the application. Granite steps are virtually maintenance-free, appreciate in value, and with our streamlined production process, are extremely affordable as well.

POSTS / BOLLARDS

Rough, hand-hewn or precisely machined, our beautiful granite posts add character, charm and strength to all landscape applications. From rustic fence posts, mailbox posts, lamp posts and hitching posts, to intricate cut-apex and cylindrical bollards, we can produce what you need, within a time frame and budget that you can live with. We will also custom engrave your post, and install hardware as you wish.

EDGING / CURBING

Granite is the ideal material for lasting borders and curbing along lawns, patios and driveways. Our garden edging will add to the beauty of your yard, and separate your landscaping from your walkway or other hardscape. The driveway edging provides a strong edge for snow removal, as well as keeps your lawn where it should be, and will lengthen the life of the asphalt edge. Whether you need a few feet to surround your flower garden, or a few hundred feet for a large driveway project, we have what you need, in stock.

BENCHES / BIRD BATHS

Reward your hard work and planning by complimenting your landscaping design with one of our hand-crafted benches and bird baths. Our sturdy benches offer a place to relax as you reflect upon the beauty of your yard. Our versatile bird baths come in a variety of heights, to attract all your winged friends. With several colors, finishes and sizes, we have the right one to fit your area perfectly, at a great price.
